Choose a reliable and gentle process with the V-PRO® Low Temperature Sterilizers

NEW

MOBILE AND COMPACT VERSION

V-PRO® 60

- 60 litres chamber
- 28 min non lumen cycle, 38 min flexible cycle, 60 min lumen cycle
- 20 cycles per VAPROX® sterilant cartridge
- Plug and play machine

USING VHP® TECHNOLOGY in every V-PRO® Low Temperature Sterilizer

- High compatibility on sensitive devices
- Reduced aborted cycles

AMSCO®

V-PRO® maX

- 136 litres chamber
- 28 min non lumen cycle, 35 min flexible cycle, 55 min lumen cycle
- 15 cycles per VAPROX® sterilant cartridge
- Mixed loads

Process indicators

Sterility Assurance is a quality control protocol developed by each hospital to monitor and record the sterilization processes. STERIS supplies a range of tools for this purpose:

Biological Indicators

> Verify® V24 Self Contained Biological Indicators.

> Verify® Biological Indicator Incubators.

> Verify® V24 Self Contained Biological Indicator Test Pack.

Chemical Indicators

> Verify® VH_2O_2 Process Indicator.

> Verify® VH_2O_2 Process Label.

> Verify® VH_2O_2 record Card with Process Indicator.

Sterilants and Accessories

VAPROX® Sterilant

> Hydrogen Peroxide delivered in sealed cartridges.

> 1 standard cartridge = 15 cycles (V-PRO® maX) or 20 cycles (V-PRO® 60).

> VAPROX® cartridge safe to handle, has a shelf life of 15 months from manufacture.

> A barcode on each cartridge ensures that expired sterilant is not used to run a cycle.

Tyvek® Pouches & Reels

> Outstanding strength, durability and tear resistance.

> Clear indicator process colour change.

> Available in a wide range of sizes.

Trays and Organisers

> Plastic trays designed for gas penetration and compatible with the VHP process.

> 4 sizes available.

> Organizers available for safer instruments positioning.

Tray Mats

> V-PRO® mats are lightweight, durable and allow for sterilant penetration when processing instruments.

PolyWraps

> Nonwoven SMMS wraps with excellent drapability.

> Available in a wide range of sizes.

Tape

> Adhesive tape is available for use with the SMMS PolyWraps.
