The Impact

Human hands are the most important medical instrument of all. As a recognized leader in caregiver skin care, STERIS products play an important role in taking care of the hands that take care of others. Caregivers' hands have countless contacts with patients and hard surfaces throughout the day. Each contact can be an opportunity to spread pathogenic organisms. Hospital associated infections (HAI's) are a universal threat to patient safety and can significantly impact patients and their families translating to: longer hospital stays, long-term disability, financial drain or even death.

- 1 in 20 patients will be infected with an HAI¹.
- Approximately 1.7 million patients are infected with HAI's annually in the U.S. and 99,000 will die.²
- HAI's are the 4th leading cause of death in the U.S.²
- HAI's add an estimated \$45 billion in cost to the U.S. healthcare industry.³

The Solution

Strict adherence to proper hand washing protocol can help prevent the spread of HAI's. The cost of hand hygiene products pales in comparison to the financial impact of a single HAI infection within a healthcare facility. Quality products, developed specifically for healthcare workers, will increase their willingness to wash as often as needed. Choose alcohol sanitizers, soaps and lotions that promote healthy skin without irritation.

Waterless Sanitizers

Alcare Plus® Antiseptic Handrub

- Foam mousse, 62% (v/v) ethyl alcohol-based waterless handrinse
- Meets FDA proposed criteria for waterless Healthcare Personnel Handwash and waterless Surgical Scrub
- Kills 99.999% of MRSA and VRE in 5 seconds (modified time kill *in vitro*)⁴
- Formulated with enhanced emollients to moisturize skin in high frequency professional use healthcare environments
- CHG compatible – does not reduce CHG persistence

6399-90	17 oz/12 per case
6399-36	9 oz/24 per case
6399-57	5.4 oz/24 per case
6399-P2	2.2 oz/48 per case

Dispensers

T516-Q5	Wall Bracket 17 oz/12 per case
T603-Q7	Wall Bracket 9 oz/24 per case

Kindest Kare® Foam Antiseptic Handrub

- Air infused foam 62% v/v ethyl alcohol
- Meets FDA proposed criteria for waterless Healthcare Personnel Handwash and waterless Surgical Scrub
- Kills 99.999% of MRSA and VRE in 5 seconds (modified time kill *in vitro*)⁴
- Moisturizes skin as well as hand lotions

1199-FM	1 liter/12 per case
1199-FH	15 oz/18 per case

Cal Stat® Plus Antiseptic Handrub

- Liquid 63% (v/v) isopropyl alcohol-based waterless handrub
- Meets FDA proposed criteria for alcohol-based waterless Healthcare Personnel Handwash
- Kills 99.999% of MRSA & VRE in 5 seconds (modified time kill *in vitro*)⁴
- Proven to moisturize as well as marketed hand lotions
- Hydrates skin for up to two hours
- CHG Compatible - does not reduce CHG persistence

1181-87	1 liter /12 per case
1181-RP	15 oz/18 per case
1181-03	4 oz/72 per case
1181-49	2 oz/96 per case

Soft 'N Sure® Foamed Antiseptic Handrub

- Foam mousse, 62% (v/v) ethyl alcohol-based waterless handrinse.
- Broad spectrum against pathogenic microorganisms including MRSA and VRE (modified time kill *in vitro*)⁴
- Formulated with emollients to moisturize skin in high frequency professional healthcare environments.
- CHG compatible – does not reduce CHG persistence.

1381-90	17 oz/12 per case
1381-36	9 oz/24 per case

Soft 'N Sure® Antiseptic Hand Gel

- Gel 65% (v/v) ethyl alcohol
- Effective at eliminating >99.999% of many common germs in 15 seconds (modified time kill *in vitro*)⁴
- Contains skin moisturizers including vitamin E

1445-87	1 liter/12 per case
1445-73	32 oz/6 per case
1445-A6	15 oz/6 per case
1445-92	2 oz/48 per case

Antimicrobial Soaps

Antimicrobial or medicated soap (detergent) contains an antiseptic agent at a concentration sufficient to inactivate microorganisms and/or temporarily suppress its growth. The detergent activity of such soaps may also dislodge transient microorganisms or other contaminants from the skin to facilitate their subsequent removal by water.⁵

Kindest Kare® Antimicrobial Foaming Handwash

- Mild healthcare personnel handwash containing 0.75% triclosan, a proven antimicrobial agent with documented broad spectrum efficacy against both gram positive and negative bacteria, as well as fungi.
- Broad spectrum antimicrobial performance in 15 seconds including *Acinetobacter baumannii*, MRSA and VRE (modified time kill *in vitro*)⁴
- Demonstrated statistically equivalent antimicrobial effectiveness with a marketed 4% CHG hand hygiene product⁴
- Designed with a specially formulated surfactant system and for frequent handwashing by healthcare workers in all healthcare settings
- Meets U.S. FDA proposed criteria for Healthcare Personnel Handwash
- Mild, dermatologist-tested, hypoallergenic, dye-free antiseptic hand hygiene product

1452-RF 15 oz/18 per case

1452-F6 1 liter/6 per case

CV® Medicated Lotion Soap

- Mild handwash containing 0.5% Triclosan, a proven antibacterial agent with documented efficacy against both gram positive and gram negative bacteria
- Effective against MRSA and VRE (modified time kill *in vitro*)⁴
- Ready-to-use product is a blend of natural soaps and synthetic detergents
- Contains emollients and skin conditioners which are gentle on hands and help reduce skin dryness
- Quick lathering for thorough cleansing and easy rinsing.
- Opaque liquid soap with a lavender scent.

6262-87 1 liter/12 per case

6262-R2 15 oz/18 per case

6262-K6 4 oz/72 per case

Kindest Kare® Antimicrobial Hand & Body Wash

- Contains 0.2% Triclosan, a proved antibacterial agent with documented efficacy against both gram-positive and gram-negative bacteria
- Formulated to decrease the level of odor-causing bacteria on the skin and has proven activity against both MRSA and VRE
- Can be used for routine bathing, shampooing, no rinse bed bathing, and as a general skin cleanser
- Blue-green in color with a citrus floral scent

1171-87 1 liter (SDS)/12 per case

1171-48 8 oz/48 per case

Routine Soaps

Kindest Kare® Foaming Handwash

- Foaming routine handwash designed with a specially formulated surfactant system and skin conditioners to cleanse hands without negatively impacting the skin's natural moisturizing factors
- Mild, dermatologist-tested hypoallergenic skin cleanser is dye-free, has a neutral pH, and is gentle on the hands
- Clear and dye-free with a Citrus floral scent
- Green Seal approved

1152-F6 1 liter/6 per case

1152-RF 15 oz/18 per case

Kindest Kare® Skin Cleanser

- Routine handwash product combining the latest technology in skin conditioning to produce a quick rinsing hand cleanser
- Surface active agents disperse hard water, reducing soap residue and speeding the handwashing process
- Contains protein and skin conditioners to lubricate and moisturize the skin, making it feel velvety soft
- Preserved to prevent product contamination and white in color with an herbal scent

1105-87 1 liter/12 per case

1105-R2 15 oz/18 per case

Kindest Kare® Hand & Body Wash

- Gentle body wash and shampoo formulated with vitamin E, Aloe Vera and emollients
- Versatile and economical product suitable for total body cleansing, shampooing, no rinse bed bathing and routine handwashing
- Select combination of surfactants and conditions leaves skin and hair soft without drying
- Peach in color with a light floral scent

1117-87	1 Liter/12 per case
1117-R2	16 oz/18 per case
1117-03	4 oz/72 per case

Surgical Scrubs

BactoShield® CHG 4% Handwash/ Surgical Scrub

- Antimicrobial skin cleanser with 4% Chlorhexidine Gluconate. Chlorhexidine Gluconate is one of the most accepted active antimicrobial agents
- Designed for healthcare personnel handwashing and surgical scrubbing
- Provides rapid and persistent antimicrobial action
- Available in liquid form and amber in color, with a fresh scent

1344-08	1 gal/4 per case
1344-24	1 qt/12 per case
1344-33	16 oz/12 per case
1344-39	4 oz/48 per case

BactoShield® CHG 2% Handwash/ Surgical Scrub

- Provides rapid, persistent bactericidal action against a broad spectrum of microorganisms including methicillin-resistant *Staphylococcus aureus* (MRSA) and vancomycin-resistant enterococci (VRE).
- Designed for healthcare personnel handwashing, surgical hand scrubbing, patient preoperative skin preparation, skin wound and general skin cleaning.
- New technology allows 2% Chlorhexidine Gluconate to be as efficacious as 4% Chlorhexidine Gluconate
- Thicker formulation for less run-off and better lathering characteristics, and is amber in color, with a fresh scent

1322-87	1 liter/12 per case
1322-08	1 gal/4 per case
1322-24	1 qt(32 oz)/12 per case
1322-39	4 oz/48 per case

Alcare® OR Foamed Antiseptic Handrub

- Foam mousse, 62% (v/v) ethyl alcohol-based waterless handrinse
- Meets FDA proposed criteria for waterless Surgical Scrub and Healthcare Personnel Handwash
- Kills 99.999% of MRSA and VRE in 5 seconds (modified time kill *in vitro*)⁴
- Formulated with enhanced emollients to provide moisturization to avoid damage associated with traditional surgical scrubbing
- CHG compatible – does not reduce CHG persistence

6396-80	17 oz/12 per case
1029-R5	15 oz/12 per case
T164-Q0	Hands Free Foot Pump (each)

Lotions

Lotion Soft® Skin Conditioner

- Nonionic moisturizing lotion that does not inhibit residual activity of chlorhexidine gluconate (CHG)
- Contains emollients and moisturizers, making it an ideal moisturizer for healthcare personnel following antimicrobial handwashing
- Does not contain petrolatum or mineral oil so that health care personnel can use it under gloves
- Rubs in quickly with a non-greasy after feel

1029-87	1 liter/12 per case
1029-R5	15 oz/12 per case
1029-K6	4 oz/72 per case
